**NOAH DERKSEN RELEASES FINAL INSTALLMENT OF NEW
ALBUM *America, Dreaming* OCTOBER 4th, 2019
*Announces FALL US CD Release Tour Dates***

"Derksen's vocals are impeccable, and the lyrics are relatable" - Canadian Beats
"Derksen has a lovely tone — there's a warmth there that is instantly familiar upon first listen." - VoiceCouncil Magazine

(Oct 4, 2019) Noah Derksen is a Canadian singer-songwriter producing a singular and haunting brand of folk-roots / americana music punctuated by his skillful guitar and soulful

vocals. *America, Dreaming* is a personal journey containing Noah's observation of his own identity as an American citizen growing up in Canada. Written over time he spent living and travelling across his mother's native land, the United States – from Oregon to Nashville, and New York to California – this collection of songs were recorded and produced by Murray Pulver (The Bros. Landreth, Joey Landreth, Doc Walker, etc.) in Winnipeg,.

This Release is a **FULL ALBUM**, the third and final installment of a **THREE PART RELEASE**. Parts One and Two were released digitally in March and July, respectively.

This unique roll out *takes advantage of the listening habits of today's music audiences based on changing technological and inter-connected contemporary lifestyles*. The quality and beauty of these songs left listeners eagerly anticipating the final installment — the release of the full album.

Graphic design / artwork: Roberta Landreth.

ON THE FULL ALBUM

“As an American-citizen growing up in Canada, I held an unrealistic depiction of the United States as a land of opportunity and freedom in all accounts. In years spent living, touring, and working south of the border, I’ve discovered the practical limitations in accessibility to this opportunity and freedom.

America, Dreaming is a full-length album that represents an observation of my home and native land south of the 49th parallel; an observation both external, of how things change with time, and internal, on my own shift in perspective.

This album was written during a time of living and travelling across the United States – from Nashville to Oregon, and New York City to California – these songs present my ever-shifting understanding of this Nation that has wrapped my identity since the day I was born.” — Noah Derksen on his latest album, America, Dreaming.
